Project Date

2007

JBA prepared the Water Quality Management Master Plan for the 180-acre Arbor Ridge Master Plan Development near the City of Beaumont in Riverside County, CA. The completed Plan included detailed Best Management Practices (BMP) design, implementation and O&M

specifications, hydrology/hydraulics calculations for stormwater mitigation/treatment measures, and GIS-based reference maps and BMP exhibits. All calculations were performed using JBA's in-house CivilDesign® software.
