Project Date

2007

JBA prepared the Water Quality Management Master Plan for the 1,076-acre Rancho Los Lagos Mixed-Use Master Plan Development near in Imperial County, CA. The completed Plan included detailed Best Management Practices (BMP) design, implementation and O&M

specifications, hydrology/hydraulics calculations for stormwater mitigation/treatment measures, and GIS-based reference maps and BMP exhibits. All calculations were performed using JBA's in-house CivilDesign® software.
